Education

Institute of Aeronautical Engineering, Hyderabad

B.Tech in Computer Science Engineering (Data Science)

May 2027 (Expected)

GPA: 7.9

Jyothishmathi Institute of Technology and Science, Karimnagar

April 2024

Diploma

GPA: 8.69

Surya Oxford Sainik High School, Sircilla

May 2021

SSC

GPA: 10.0

Technical Skills

Languages: C, Java, Python

Frontend: HTML, CSS, JavaScript, PHP

Backend: Node.js, Express.js, RESTful APIs

Tools: MongoDB, Git, Postman, Visual Studio Code

Relevant Coursework

- Data Structures and Algorithms
- Object Oriented Programming
- Database Management Systems
- Operating Systems
- Computer Networks
- Machine Learning
- Artificial Intelligence
- Big Data Analytics
- Software Engineering

Internship

Central Institute of Tool Design (CITD), Hyderabad

May 2025

- Worked on Deep Learning techniques focusing on Convolutional Neural Networks (CNN) for image classification.
- Implemented image preprocessing including normalization, resizing, and augmentation.
- Trained CNN models for multi-class image classification using real-world datasets.
- Evaluated models using accuracy, precision, recall, and confusion matrix.
- Improved model performance through hyperparameter tuning and dataset balancing.
- Documented project findings and presented results to mentors.

Projects

CNN-Based Plant Disease Detection

May 2025

- Developed a CNN model to automatically detect plant diseases from leaf images.
- Applied preprocessing and data augmentation to improve training performance.
- Trained the model using deep learning frameworks for accurate classification.
- Designed the system to help farmers detect diseases early and reduce crop loss.

Big Data Architectures in Educational Infrastructure (Ongoing)

- Designing scalable big data architecture for large academic datasets.
- Implementing distributed data storage and processing frameworks.
- Developing data pipelines for efficient data processing and analytics.
- Analyzing educational datasets to extract insights on academic performance.

Student Performance Prediction System

Jan 2025

- Built a machine learning model to predict student performance using historical data.
- Performed data preprocessing and feature engineering.
- Tested algorithms including Decision Tree and Random Forest.
- Visualized prediction results using graphs and statistical charts.

Personal Portfolio Website

Nov 2024

- Developed a responsive portfolio website using HTML, CSS and JavaScript.
- Showcased technical projects, skills and coding profiles.
- Integrated GitHub repositories and LinkedIn profile.
- Deployed the website using GitHub Pages.

Certifications

Web Development Internship – Cognifyz Technologies

Mar 2025

Deep Learning – Central Institute of Tool Design (CITD)

May 2025

DevOps Fundamentals – Resource on IT Solutions

Apr 2024

Coding Profiles

LeetCode: Solved 130+ Problems, Global Rank: Top 5 Lakh

HackerRank: Solved 75+ Problems, Global Rank: Top 1 Lakh

GeeksForGeeks: Solved 100+ Problems, Global Rank: Top 1 Lakh

Achievements

- Earned Silver (3*) badge in C++ on HackerRank for problem-solving proficiency.
- Earned Silver (4*) badge in Java on HackerRank demonstrating strong core language skills.
- Earned Copper (2*) badge in C on HackerRank.

Leadership and Activities

- Active participant in competitive programming and coding challenges.
- Participated in technical workshops on Artificial Intelligence and Data Science.
- Collaborated with peers on academic and technical projects.
- Regularly practice problem solving to strengthen algorithmic thinking.

Soft Skills

- Problem Solving
- Analytical Thinking
- Team Collaboration
- Time Management
- Communication Skills

Interests

- Competitive Programming
- Artificial Intelligence and Data Science Research
- Learning New Technologies
- Open Source Contributions
